

PEOPLE & CULTURE

The People & Culture team provides information and advice about all matters relevant to employment, from recruitment to retirement.

We are skilled professionals and keep up to date with all aspects of employment law and occupational health and safety.

We understand that employment in congregations may require special attention, and that often, paid staff are engaged alongside a wide range of people volunteering their skills and time.

Maintaining a safe environment for everyone to contribute is critical and vital for worship, ministry and mission to thrive.
