

CELEBRATION OF LIFE

By Bill Pugh

Genesis in the story of Creation and praises God who formed man out of the dust of the earth and breathed into his nostrils the breath of life as he became a living being.

It's easy for us to forget that.

Life's journey is a graph of ups and downs, of good times and bad times.

The great haunting problem in many lives is depression.

It's so easy for us to be weighed down by doubts and fears.

When we can't cope and rise above our circumstances we become depressed.

There are many ways to overcome that debilitating state, and talking and praying help.

Significant is the ability to celebrate life, and everywhere around us nature witnesses the joy of being alive.

The busyness of the birds, the rustle of the trees, the blooming of flowers is witness to life, and around us children are playing.

Everywhere around us life is celebrated for us to enjoy.
