

ChemAlert Database

The [ChemAlert database](#) allows people to access any chemical found in the church and access Material Safety Data Sheets (MSDS's) or Safety Data Sheets (SDS's) right away. To access the ChemAlert system please [click here](#) or type the link below into your Web Address Line.

The link is: <https://chemalert.rmt.com.au/uac/>

In order to access the ChemAlert site Uniting Church congregations are to contact the Synod OHS Team for a Username and Password SynodOHS@victas.uca.org.au

Please note:- In order to view ChemAlert you will need to allow pop-ups.
(To do this, right click on the yellow notification tab at the top of the window and select 'Always Allow Pop-ups for This Site').
