

# Wind Powered Art

**You will need:** Paper, paint, straws, ping pong balls and a baking tray.

**Instructions:** Have you ever tried to make a piece of art using wind power?

Get your own straw (make sure it's a new, clean one!) and a table tennis ball.

Put a piece of paper and some blobs of paint in a tray. Use the straw to blow the table tennis ball through the paint to create your painting!

**Talk about:** In several places in the bible, God reveals God's self to people in a strong wind.

- I wonder why God chose to reveal God's self that way?
- What does this make you wonder about God?
